Meet**SAFE**

GUIDELINES

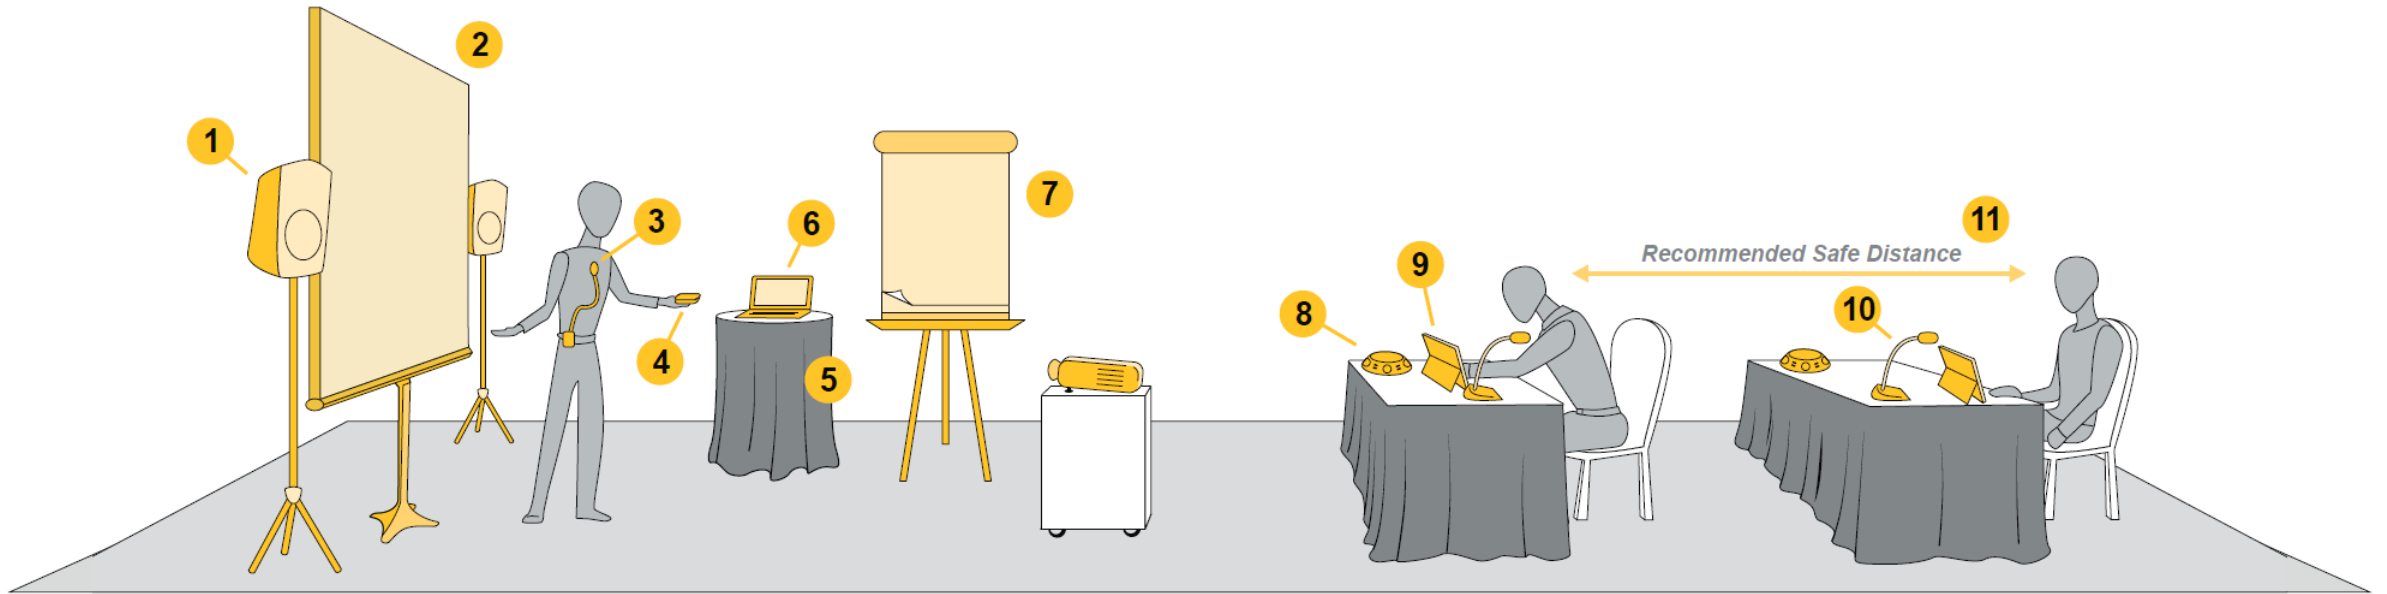

OVERVIEW

Working alongside venue partners, encore has designed a series of meeting formats, equipment packages, and recommendations that address how to reduce risk, increase confidence, and promote health within the meeting space. Meeting design, room layout, traffic flow, technology considerations and enhanced cleaning procedures are at the heart of this offering with the goal to make the meetings and events industry strong, and healthier than ever.

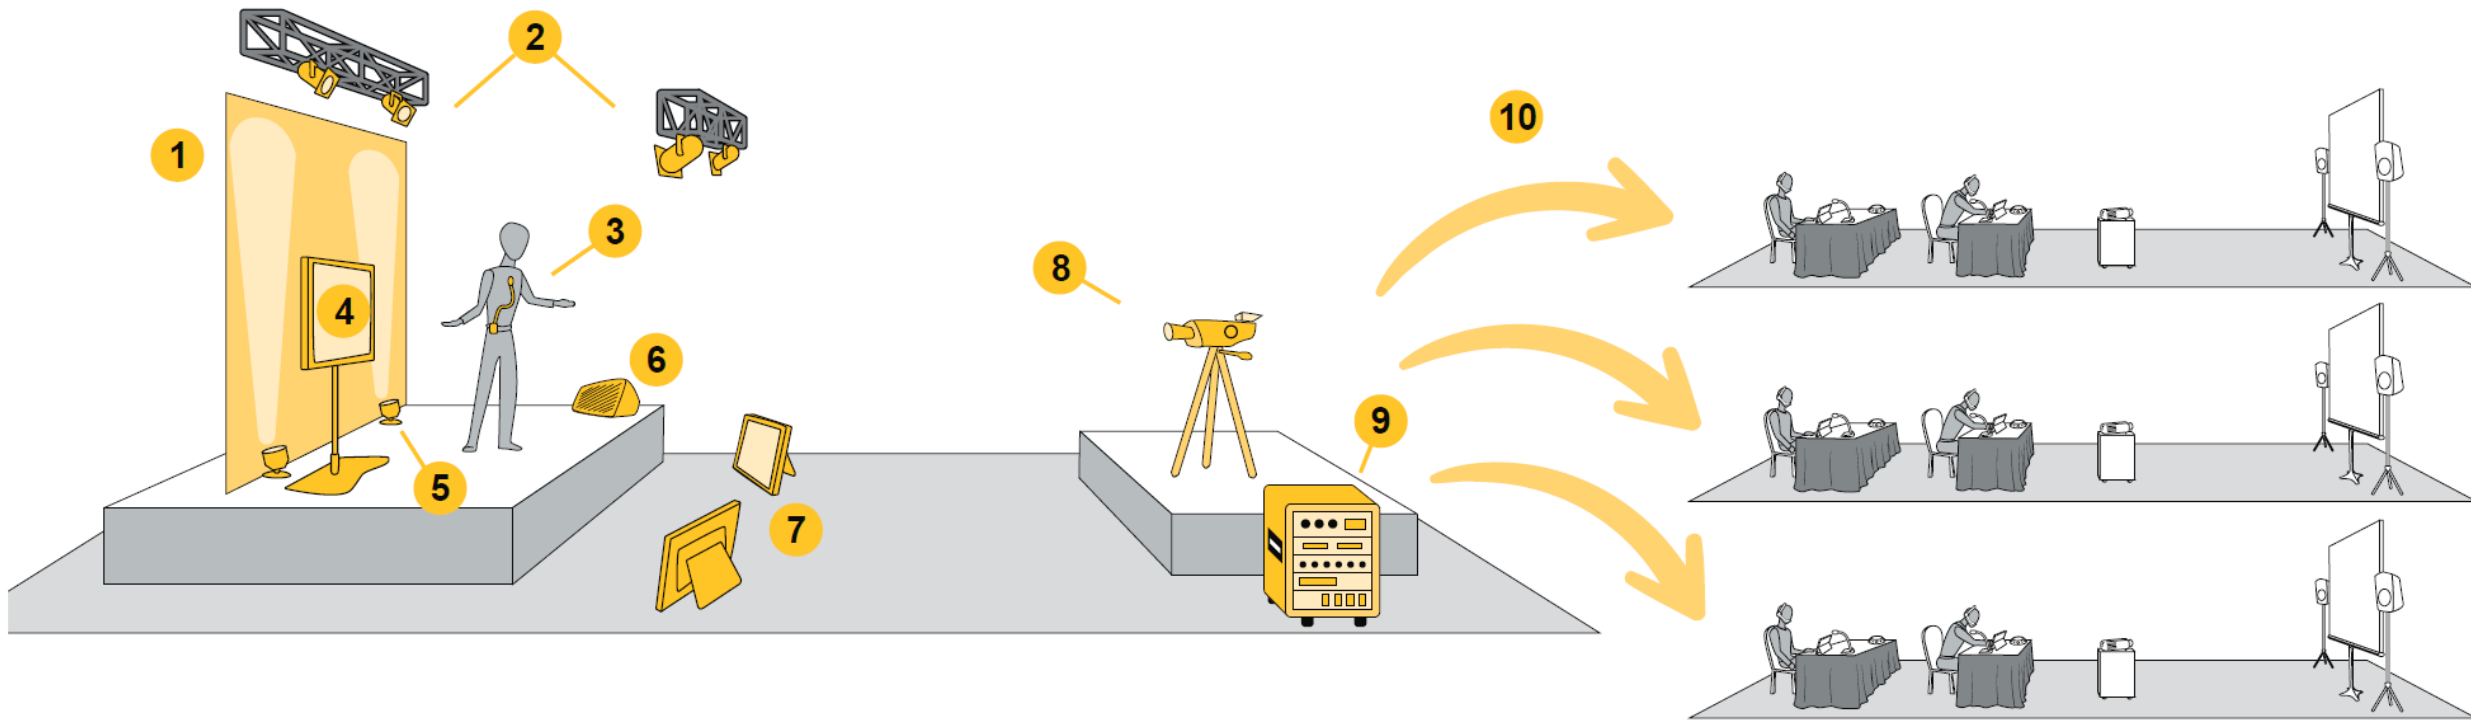

MEETING DESIGN 1

One meeting room, single venue

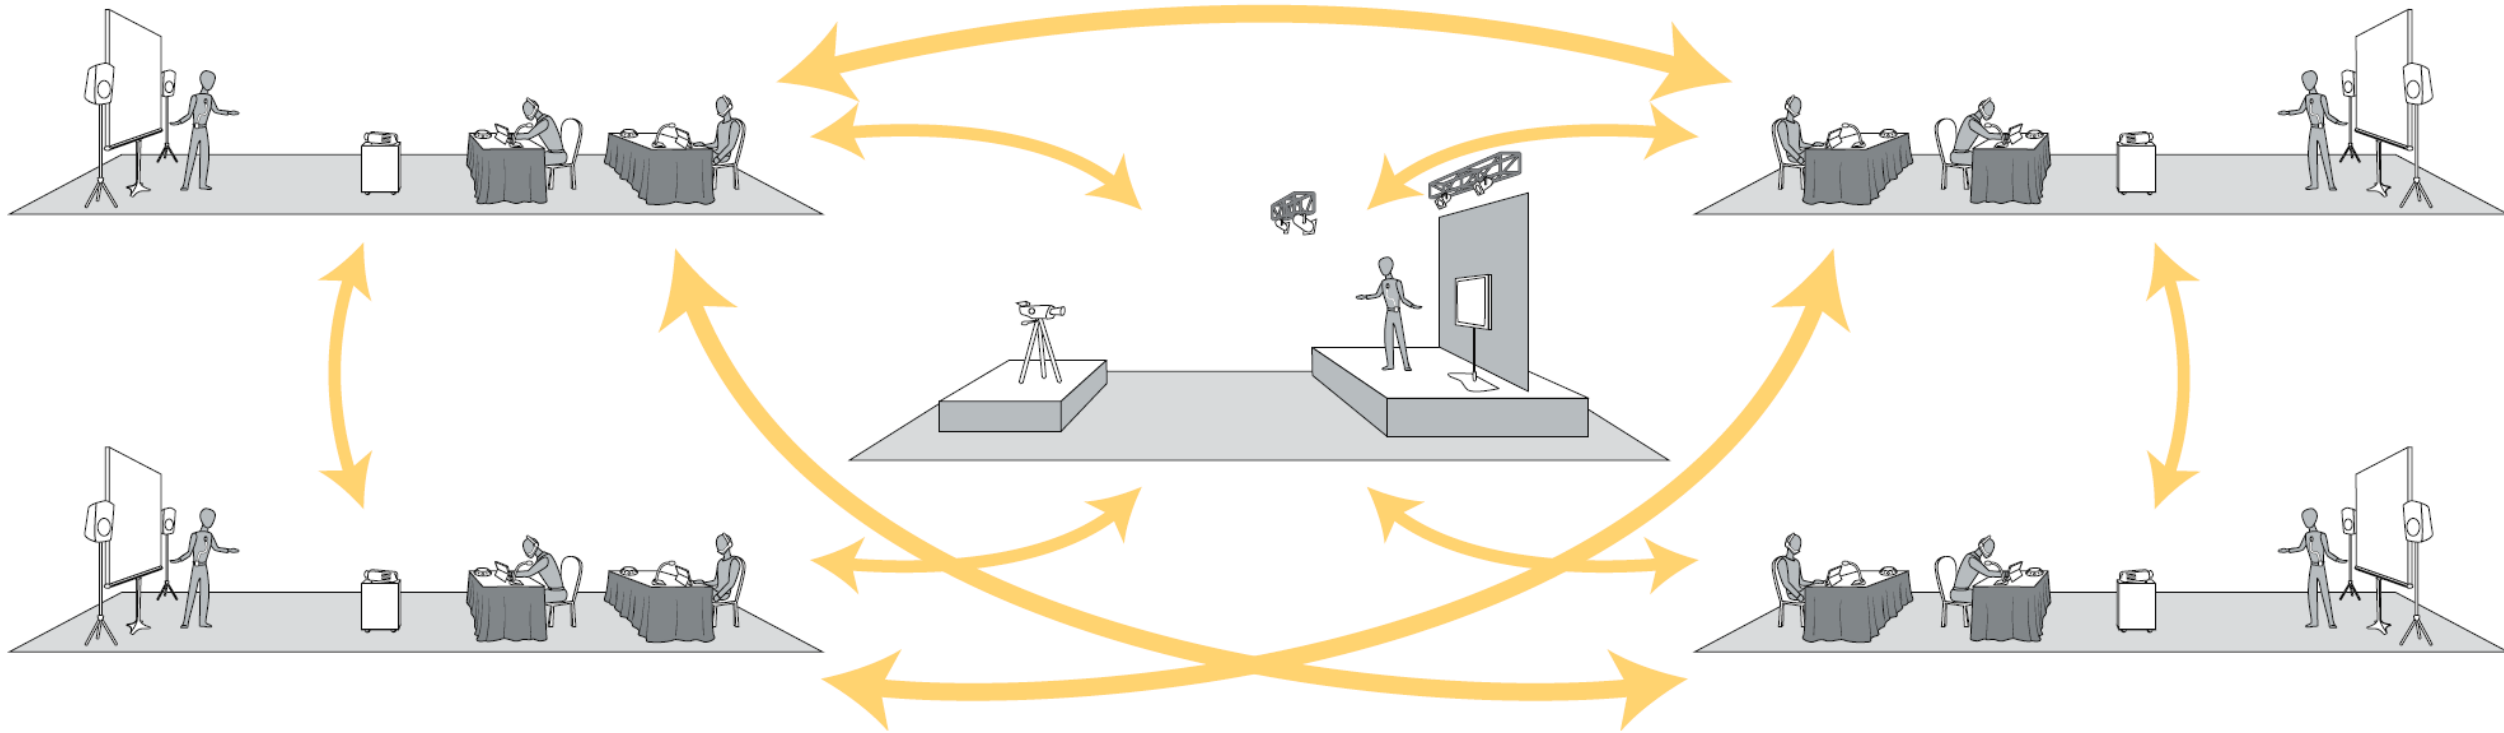

MEETING DESIGN 2

Multiple rooms, single venue

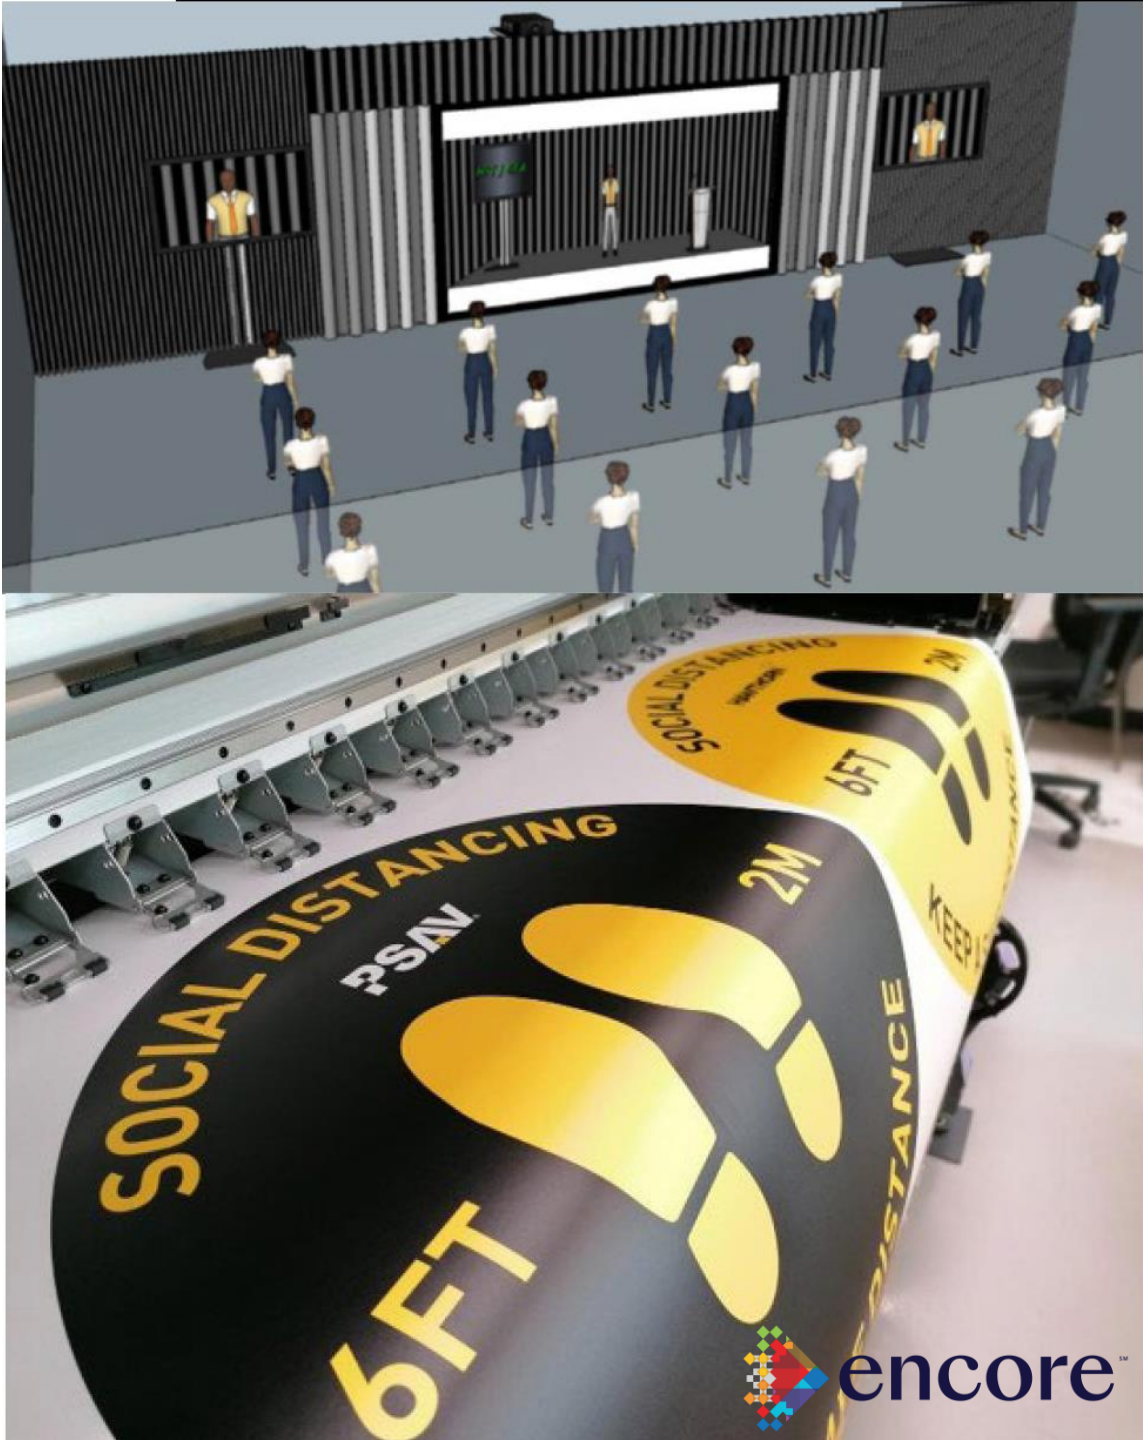

MEETING DESIGN 3

Multiple rooms, multiple venues

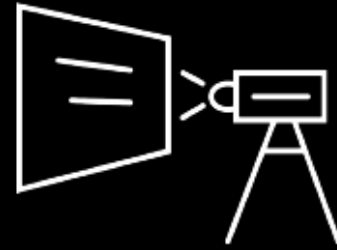

ROOM LAYOUT & TRAFFIC FLOW

SAMPLE ROOM LAYOUT

Supporting Technologies

Traditional Projector and Screen

Delay Monitors for those in the back of the room

Add sound reinforcement when appropriate

Digital Q/A or Polling Devices to assist with physical distancing measures.

Push to talk MICs to assist with everyone being heard

Record your event for those not able to attend

Reduce touch points by using wireless presenter tools like Click Share

Leverage web-conferencing to bring in remote participants

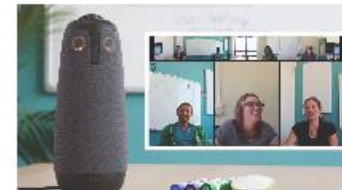

Meeting Owl

- Small Board Room
- Plugs in via USB
- Use any web service
- Built-in Speaker
- 360° camera

PSAV Meeting Owl

Introducing the Meeting Owl, an all-in-one video conferencing solution for conference or huddle rooms. USB plug 'n play and works with ZOOM and all other web conferencing platforms. The Meeting Owl is optimized for groups of 2-12 people working collaboratively.

Use the Meeting Owl in Conference Rooms

The Meeting Owl also works well in small conference rooms where 2-12 people are sitting within a 12-foot diameter of the Owl.

Use the Meeting Owl in Huddle Rooms

Huddle rooms often have a camera mounted above or below the television, making remote meeting participants feel like a fly on the wall. The Meeting Owl brings your remote team members into the room and gives them a seat at the table.

Dynamic video & audio.

The meeting Owl's 360° lens automatically focuses on users as they speak, while 8 omnidirectional microphones locate the presenter and speakers stream exceptionally clear audio.

All-in-one.

Combines video and audio to simplify your meeting set up. Like a dynamic and sophisticated webcam, but better.

No installs, 100% compatibility.

Just connect via USB and meet. Owl operates software-free and is compatible with any web-based meeting platform.

Set Up Using a Laptop

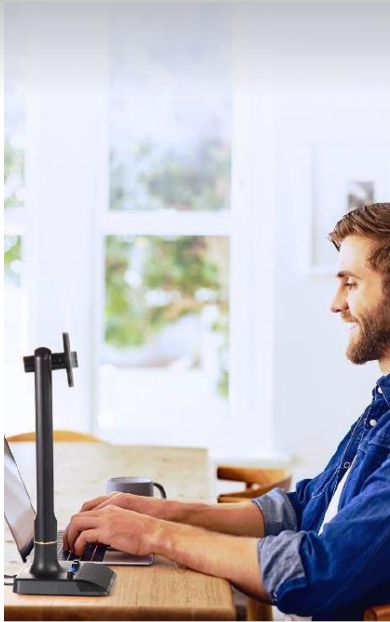

1. Connect the Meeting Owl to power and plug the USB into a laptop.
2. Start the meeting in the video conferencing platform of choice.
3. Select the Meeting Owl as a video, mic and speaker input.
4. Connect the laptop to the in-room display.

TECHNOLOGY SOLUTIONS

Chime Live

Chime Live Modules

Chime Live
by **CONCISE**

- Chime Live can help overcome the challenge of bringing remote presenters and participants together by providing them a virtual environment to connect and collaborate.
- Chime Live's interactive features help overcome distractions and keep engagement levels high. Post-event, you can also share recorded sessions for participants who missed or want to replay a session. You can also review Chime Live's analytics to help you evaluate and report on results.

Capabilities

- Secure login for your attendees
- Customer logo and color choices
- Personalized track-based agenda
- Live attendee networking (business card/chat)
- Presenter bios and resource gallery (up to 20)
- Chime Q&A customer-moderated upvoter
- Note-taking on platform (attendee download)
- Single post-event survey and basic analytics
- Access 1 week before

Benefits

- Deliver all sessions in one easy-to-navigate location
- Receive support building your platform
- Share recorded sessions after event completion
- Engagement & ROI Analytics
- GDPR compliant
- Set personalized tracks for attendees

CONTENT1 VIRTUAL

Virtual Content Management

Content1 Demo

Content1 Virtual delivers a vibrant web presence to virtual attendees, provides speakers with a platform to share their content, and offers presenters the ability to record audio tracks for both presentations and posters that help bring their content to life.

The Content1 platform makes it easy to deliver your event's content whether it is live or on-demand. With our guidance, presenters record and upload their presentations from their home or office pre-event. In addition to on-demand, content can be released on a schedule to closely simulate a face-to-face event.

Capabilities

- Deliver live and pre-recorded presentations simultaneously
- Upload content from any location
- Tools include: Handouts, Disclosure Forms, and Questionnaires
- Record and present virtual ePosters
- Send invitation emails & reminders
- Allows 3rd party integration
- Secure login

Benefits

- Accessible from any location with internet access
- Automated presentation conversion to web-ready format
- Deliver concurrent sessions, live or on-demand
- GDPR compliant
- Presenter support team

WEB CONFERENCE

Use Web Conferences for:

- Board Meetings
- Seminars
- Collaborative Meetings

Web conferencing provides a collaborative video environment for you and your audience. Through our online conferencing platform, your audience accesses the live event and communicates either by using webcams or through sharing screens.

Web conferencing is perfect for meetings with colleagues, membership and other stakeholders.

WEBINAR

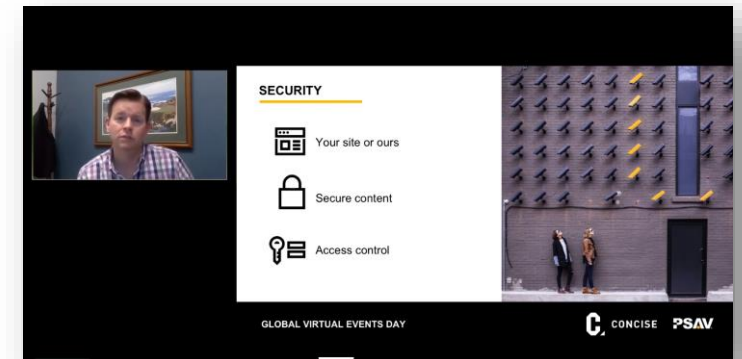

Potential applications

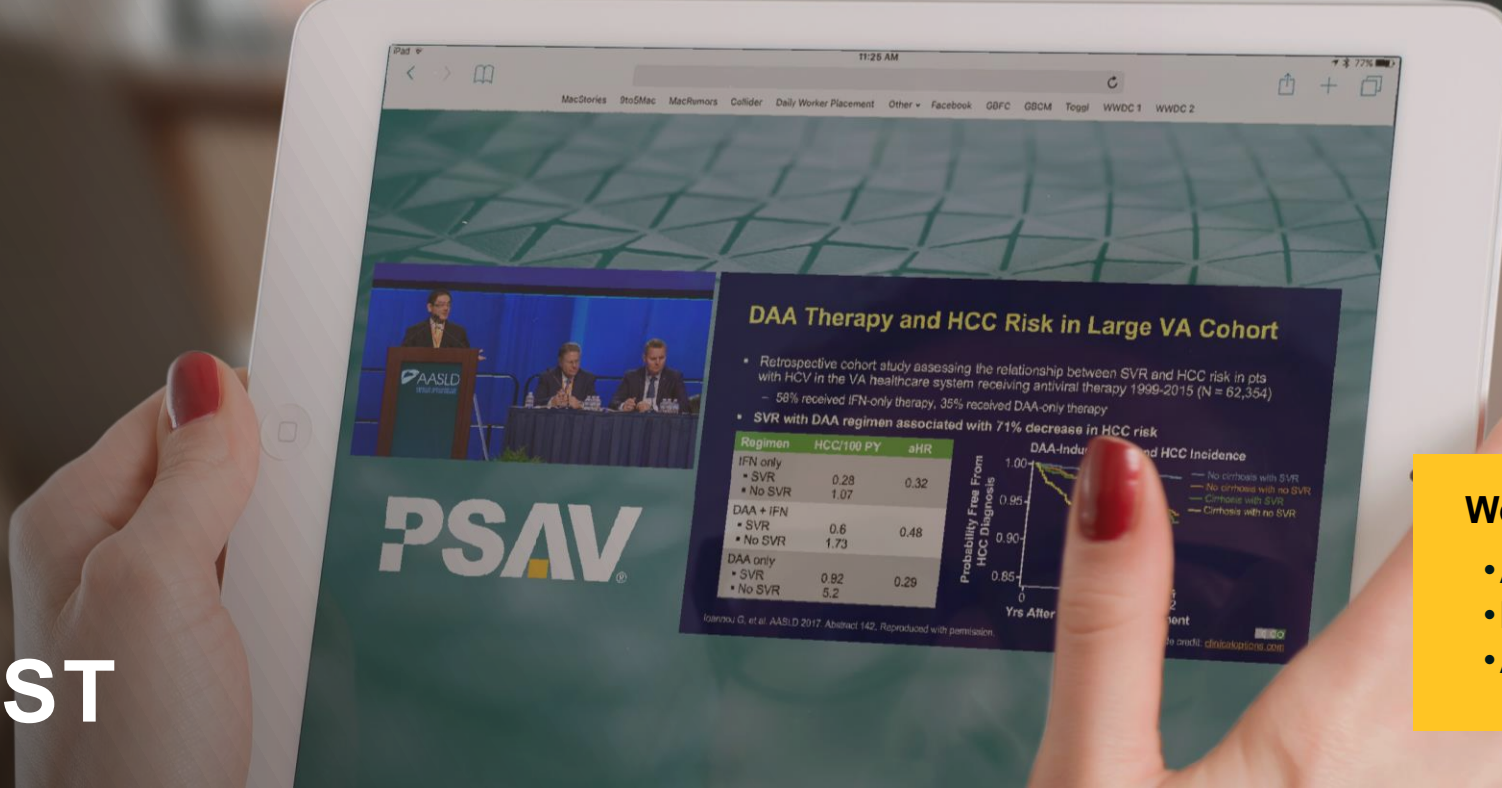

- General Sessions
- Seminars
- Town Hall Meetings

A webinar is a presentation with a live audience. Multiple presenters can interact with one another through shared video and audio, but the audience is observing through a live broadcast.

Webinars are perfect for informational and educational sessions as well as general sessions and seminars. Sessions can be complemented with live polling and other engagement tools.

WEBCAST

Webcasts can be used for:

- Annual General Meeting
- Keynote Address
- Award Ceremonies

A Webcast is a one-way broadcast of a live event. It's supported by audio, video, and then presented to a large audience through a website.

Webcast is perfect for taking large presentations, awards ceremonies, weddings, briefings, and seminar content, and deliver it to a wide audience.
